

**JOURNAL OF THE GEORGIAN  
CERAMISTS' ASSOCIATION**

ISSN 2960-9534

**INTERNATIONAL JOURNAL  
OF CERAMICS, COMPOSITES, SCIENCE  
AND ADVANCED TECHNOLOGIES**

<http://ceramics.gtu.ge>

Vol. 26. 1(51).2024

SCIENTIFIC RESEARCH CARRIED OUT  
IN THE SPHERE

of all types of glass, ceramics, ceramic and polymer composites, superconductive materials, glazes and enamels, stone casting, mineral cotton, sequetering materials, cement and other inorganic hardly fusible new and traditional materials, technique and technology for their obtaining, nanotechnology and nanochemistry, polymeric biomaterials, bioengineering, technology of organic substances, metallurgy, materials science, composite materials and coatings, inorganic and organic synthesis, electrochemical technologies for obtaining nanomaterials and composites, thermodynamics, kinetics and catalysis.

ALSO, THE JOURNAL MAY CONTAIN  
ARTICLES ON THE FOLLOWING  
TOPICS:

- New machinery, equipment, technical re-equipment of enterprises and production.
- Development of the raw material base, rational use of raw materials, including waste from local production.
- Resource and energy saving technologies. Environmental Protection.
- Economic activity of enterprises in market conditions, economics, marketing.
- Factory experience.
- Information, advertising.

FIELDS OF APPLICATION:

- Energy
- Construction
- Consumer goods
- Chemistry and chemical technology
- Materials Science
- Metallurgy
- Electronics and electrical engineering
- Medicine
- Optics
- Other fields
